Acclaimed designer Melanie Morris (melaniemorrisinteriors.com) has teamed up with Greenwich-based Fayette Studio (fayettestudio.com), a premium resource for bespoke carpets, on an exclusive capsule rug collaboration that combines both the whimsy and the elegance Morris is known for. The Pop Collection features seven eclectic graphic design patterns, each with a vibrant burst of color. Ranging from an array of diagonal arrows to lightning bolts, the collection makes a sparkling complement to spaces begging for vibrancy.

“I approach designing products in a similar way as I do designing interiors—it should feel fresh but not too serious,” Morris explains. “The result is a marriage of my love of the simple, modern and playful in a colorful, graphic collection.”

Morris, known for crafting distinctive spaces that combine beauty and practicality, has curated three to four different colorways for each of the designs, but like any Fayette Studio carpet, they can be customized even further in material, size and color. The showroom, located in Greenwich, Conn., has sample rugs in some of the colorways and is open by appointment and remote consultation.

“Melanie brings out a unique personality in each of her projects,” says Kyra Schulhof, founder and CEO of Fayette Studio. “I had no doubt collaborating with her would result in something distinctively modern, sophisticated and fun. Melanie’s designs are total eye candy.”

A PLAYFUL POP

NYC-based interior designer Melanie Morris’ new capsule rug collection with Fayette Studio adds a hint of vibrancy to every space.
