Lauren Roses // Product Editor // April 3, 2023

*New & Noteworthy is a new weekly series showcasing a select number of products that hit the HAT editors' mailboxes during the week and catch our eye. This week on New & Noteworthy we have lighting by [Foscarini](#), a rug from [Fayette Studio](#), another rug from [Nanimarquina](#), a table from [Sarah Sherman Samuel](#) and more lighting from [Kenneth Cobonpue](#). Let us know what new products you think will make the biggest impact in the coming months—we want to hear from you!*

*Fayette Studio's latest rug features bold and saturated colors, repeat patterns and organic shapes.*
